# Auto Content Cash

When I got my start in online marketing, there wasn't a moment that went by where I didn't have specific tasks that needed to be done. Thanks to Auto Content Cash, not only will we now be able to make more money, but we'll be able to do this on complete auto pilot.

When I first got into internet marketing, I bought Brian Johnson's first online course Revenue Domains Exposed. His course was all about buying expired domains with age and pagerank and quickly building sites on the domain to generate income quickly. The best part of this system wasn't just the making money part, but it was because the domains ranked well too.

Within just a couple weeks, I made my first couple dollars. Before I knew it, I was making \$100 monthly. When Brian Johnson released SEO Press Formula, this course changed my life forever. Now I knew how to build several sites that I could get ranking high on Google for my targeted keywords and generate hundreds month after month. Even today, I still own multiple sites that generate \$100 a month for each website.

The only down fault about this system is I had to write several articles everyday. The way to rank well on Google is to have a ton of content. Content is King when it comes to ranking.

Thanks to Brian Johnson and Alex Goad, they've teamed up to create one of the greatest courses to date. Welcome to Auto Content Cash. This course will help you create a system that generates money on complete auto pilot! No need to write thousands of articles anymore. Because of this system, I know I can make much more money.

Imagine having an online system that automatically creates content and adds them to various sources you have online and have them rank well on Google for various keywords and positions.
