Nowz Info Giving Free Domain

I'm having quite a few 4 letters .info domains hanging around unused and I thought I shall give them away for FREE with some fun contest. Like what I've mentioned in the title, I'll be giving away 4 letters .info domains one by one weekly.

I will not disclose the domain name but it is definitely 4 letters and is registered on 3rd December 2009. Expiry for these domain will be 3rd December 2010.

An example of 4 letter .info domain would be <http://www.nowz.info/>. I've got more than 5 domains to give away, so this contest will go on every week until I ran out of domain.

How to participate?

It's simple! Visit [Nowz Info](#) and retweet ANY article that you deem interesting in the site. You can retweet each article by clicking on the retweet button on every full article. You can retweet as many good articles as you like to increase the chance of getting selected.

Please DO NOT simply retweet ALL articles just to increase chance and result in SPAM. SPAMMING will disqualify your chance of getting selected.

How is the winner selected?

I will do a search on twitter for everyone who retweet <http://www.nowz.info/> articles daily and choose 5 twitter accounts everyday. After a week on the next Friday, I will do a random pick on 1 lucky winner among the list of twitter accounts. Winner will be notified by Twitter PM and announced here to contact me for the domain push or transfer from my GoDaddy account.

My Objective

Like I mentioned, I've got those domain hanging around unused so I thought I should utilize them. Ultimately, I'm trying to promote [Nowz Info](#) using twitter retweets with your help!

[Nowz Info](#) is a portal with latest articles updated daily. Win a Free Domain Contest is currently ongoing, simply retweet any articles to win a Free Domain. Check [Nowz Info Domain Giveaway](#) for more information.
