Right Way To Make Money Online

If you are thinking about making money online ask yourself how are the sales people being paid legitimate multilevel companies pay their sales people for selling products and services to consumers and not by just recruiting people. this is the primary distinction between a legitimate direct selling opportunity and an illegal pyramid scheme.

Example, Just say i am recruited into a plan where i pay a fee to get involved and the fee that i paid is also used to pay other recruits for recruiting. If i join a company for \$200 and everyone i recruit also pays the \$200 let us say i get \$50 down to three levels for every recruit. That means i get paid \$50 for everyone i recruited first level \$50 for everyone they recruited second level and \$50 for everybody they recruited third level. The company takes \$150 of the \$200, pays the three levels of recruits, and then keeps \$50 for running the scheme notice that no products are being moved.

Two: will the products actually benefit the lives of the people buying them or will they have to convince friends and family to buy products that have no real life benefit or value to receive a commission.

Three: Is there a large registration fee to get started in theory it shouldn't cost much to be a representative of a multilevel marketing organization. The higher the start up fee the higher the chances that money is primarily made from recruiting and not from the sale's of products and services. All most all multilevel marketing companies require a registration fee to get involved. This fee covers the cost of maintaining the account and receiving the necessary literature to get started, a high registration fee sends up a red flag and should make you wonder why is the fee so high to get started because they wanted you? you didn't want them.[youtube:c8vwxplR3Qo;[link:The Right Way To Make Money Online];http://www.youtube.com/watch?v=c8vwxplR3Qo&feature=related]

Four: How much work is required most people looking for a way to make some extra money are short on money and short on time and are looking for a way to make some fast, quick, and easy money, but as we all know nothing worth while come ease or free there is all ways a price, to have a successful internet business you have to invest some time and effort to achieve your goal which is a steady income. The ironic part is that legitimate direct selling opportunities that use multilevel compensation plans are the antithesis of the get-rich-quick mentality. People who have developed long-term income this way have built this income slowly. Eventually, a direct selling business may generate a very large income but only after significant up-front work has been done.

Five: How long has the company been in business, there's a myth that the best company to get involved with with are the new one, This is the ground floor opportunity, this is not true there were a lot of people who joined amway, mary kay, and every other multilevel marketing opportunity early who are not rich and the vast majority of the people who earned significant incomes from major multilevel companies did not get in on the ground floor. Dexter Yeager the number one income producer in the history of Amway and Bill Britt who is number two got in seven years after the company was founded. And there many who joined when it started that never made a dime and there some that broke even, so the only thing that's certain is it will take time and hard work to reach your goal of making a steady income in this business.
