# **Change Your Life With Confidential Conversions**

With Confidential Conversions you will learn how to exploit CPA programs. The author Philip Mansour will show you how to make money with the so called CPA offers with 30 videos with over ten hours of material. Furthermore you will get the step-by-step blueprint "Two Hour Master Plan". The main course is divided into three main modules:

First Module: "Network Traffic Reconnaissance"

The first module will show you great PPC programs which most internet marketers do not use. Nevertheless they have huge potential because they are small services. You will get high quality traffic from those sites. That means that these people are not forced to visit your website. These people are looking for a solution for their problems and will be happy to buy your products.

The second part of the course is called "Mobile Match Maker"

Mobile marketing was announced sometime ago and has become a growing trend for marketers. However, not many people have the information and knowledge on how to start it effectively or make money from it. In this course, you are going to get Philip's best idea and real live tactics he used to make serious money.

Module 3: Artificially Organic

This Philip's "wonder weapon". This method allows you to "hijack" visitors from search engines and other big websites. This is an extremely simple technique that almost everyone does not use it.

If the 30 Live Video sounds a lot to you, his "2 Hour Master Plan" will guide you what to do step by step to apply what you have learned from the course.

Last but not least you will get a great chance to talk with Phil together - Live. For a small fee you can get access to the weekly seminars with him.

Believe me one thing: Phil Mansour knows what he is talking about! He is a young internet marketer and started his career with only eighteen years. However he managed to produce two of the best selling Clickbank products. These courses changed even my life!
