When I first started out in affiliate marketing, the very first product that I bought was Brian Johnson's Revenue Domains Exposed. This digital EBook shows you how to pick up expired domain names and build profitable sites that can make you decent money for years. I worked really hard at learning how to build websites and use these methods. After about a month and a half, I created my first website. I've never looked back.

At the time I had no internet marketing experience whatsoever. As a matter of fact, I had no idea how affiliate marketing worked. Brian always told me that if you didn't follow his methods to the tee, then you're not following his system. Brian Johnson makes over \$100k annually, so I figured that it would be best to do exactly as he says. I'm so glad I did.

Out of every internet marketing course that I've bought over the years, there's only a handful of courses that I constantly refer back to and that's Brian Johnson's courses. As a matter of fact, if I would of only focused on Brian's course of action and ignored all the other courses out there, I know I would have been making a lot more money than I'm making now.

The niche that brings in the most money for Brian is the Halloween niche. This is why Brian has decided to turn his techniques into an online course. In less than 2 months, Brian made close to \$30k in the Halloween niche.

Halloween Super Affiliate has everything that you need to make money this fall. Live training, EBooks, plugins, Wordpress themes that are easily adjustable, weekly webinars, an online forum and much more.

Thanks to Brian Johnson I make a consistent and steady living in affiliate marketing. The funny thing is when I first started out, all I was looking to make was an extra \$200 a month. HAHA
