# How To Customize Your Own Promotional Ceramic Mug

Ceramic mugs are very common office wares. Regularly spotted inside the pantry or above every employee's office table, these mugs are very useful. Corporate people sip balmy coffee or tea on these items to rouse them up amidst a drowsy afternoon. This is one of the reasons why mugs are generally distributed as corporate or trade show incentive. More than that, ceramic mugs can also tell people a little bit of your personality. How?

Custom printed ceramic mugs can be designed according to someone's liking. He or she can paint it, print images on it. Whatever he/she wants to do, it is achievable. So how can you create your ceramic mug? There are some procedures on how you can execute that. Here is the know-how.

Buy the mug of your liking. Ceramic mugs diverge in sizes, color and style. There are mugs that have a wider opening while others have smaller. List the traits that you like for your mug and look for it in specialty stores or malls. Make sure that you are opting excellence and totally, price is a big factor.

Once you have the best ceramic mug of your choice, sketch your layout. You can create an abstract design that you outlined or merely print your name or your photograph on it. There are 3D images that you can stick onto the mug or those photographs that only show off when enthused by warm water. More than that, if you want a piece of you to be incorporated on these ceramic mugs, try using graphic software to sketch your design. This graphic software possesses numerous design effects that can make your mug more attractive to your co-workers.

At last, if you already have the mug and the design, print it. There are directions and know-how's that you may look in the internet that can aid first times to succeed on their customized mugs scheme. Nevertheless, if you hate to get filthy, you can pay a visit to some specialty outlet to have them print your design on a ceramic mug.
