# **The Basics Of Social Media Marketing**

Are you searching for new methods to increase the number of visitors to your website? What about trying social media marketing? It can generate some good results for you, even if you will hear many people say it is not effective anymore.

How do you know whether or not the tool of social media marketing can still work or whether you should focus your energy elsewhere? Well, read this article and you will find out.

May be you have read some marketing professionals stating that it is no more possible to sell products online with the help of social media marketing, as the internet marketplace has become too congested.

That is actually true, as you can see when you go to My Space, Twitter or Facebook websites, you just cant sell anything there, but you can build relationships instead.

This is one of the few known principles of marketing, and those who understand it are the ones who are making a fortune both offline and online. You see, the internet may be new, but principles of great marketing are as old as the exchange of goods and services themselves. Building trust with people is still of major importance.

Not attractive ads, nor plenty of back links will help you to increase your conversions, but only good relationship with people, which will make them want to buy from you again and again.

If your website content is relevant and interesting, people will be coming back and you will be getting sales, but not only that, happy customers will share their experience with people they know and you can be sure this will result in your business performance.

So what you should do is building trust with your targeted audience using social media marketing. Forget about promoting your products and services for a while.

Try to be useful to people, encourage them to participate in your forum, post their comments on our blog - build a good reputation and soon you will have plenty of people promoting your online business in places you couldnt even imagine. It may take time, but it is definitely worth it!
