Christmas Could Bring You A Free iPhone 4

Another year and another release by Apple, the iPhone 4. Although this specimen has a minor fault in the form of dropping signal it has become the fastest selling contract mobile of the month.

This is a problem though for the people that don't want to tie themselves down with a 24 month contract as the price for a sim free handset is huge.

The iPhone is not available as a PAYG package and the cost of a sim free handset is astronomical. Weighing in at 499 and 599 for the 16 and 32gb models it's probably too far out of reach for Joe Public to just go out and buy so what is the answer then. The answer is to get one completely FREE.

Using a fully proven method of advertising called Affiliate Marketing large companies such as Lovefilm are paying affiliate organisations to find new customers for them so the affiliate organisation in return want to pay you to help them find these new customers.

I'll try and explain the procedure a little better for you

Visit yourfreeiphone4.co.uk and sign up to open your account. You now have your own personal control panel.

After signing up you are given a control panel with a selection of offers and you need to complete just ONE of them to fully activate your account. If you don't complete an offer the affiliate organisation cannot release your free gift. I recommend the Lovefilm 14 day Free Trial.

If you now look in your control panel there are a few sections and one of them is called 'Refer Friends'. If you select this you will find your own completely unique referral link. Now you need to get other people to do exactly the same as you have just done using this link.

Every person that does complete an offer for you will count as one complete credit. You can see in your control panel just how many people you need to refer to qualify for your free iPhone 4.

Give your referral link to as many friends and family as you can, each person who joins and completes one offer will gain you one credit towards your free iPhone.

After you have collected enough greens for your model of choice you click Verify in your control panel and the affiliate organisation then run some security checks to ensure the quality and validity of your leads. As soon as this is passed they simply order your Free iPhone 4 direct from Apple and have it delivered straight to your door. How cool is that?

The time it takes to claim your free iPhone is really down to you and how fast you can get friends and family to join in. The more and quicker you work the sooner you will have your free iPhone.

There isn't much more to it really, follow the rules, play nice and it won't be long before your Free iPhone 4 comes knocking at your door looking for a new home.

Are you interested in completely Free products ? Why not call into [Free Nintendo DSi](#) to see how to claim. Also up for grabs is the brand new [Free Nintendo 3DS](#) as soon as it's released.
