FTD Merchant - 3 Ways To Buy Securely

Not every FTD florist online is legitimate. Unfortunately, some of the sites that you will encounter, which purport to sell flowers for Transworld delivery, are nothing more than scams.

These sites are so clever that you unwittingly place your order of flower delivery with them after giving them not just the recipient's address, but your own credit card details too for the sake of payment.

It is only later that you apprehend that you have been duped and that your money is lost. Moreover, you have also given your credit card details to an online scammer!

What can be done in such a situation? Well, the first action from your part should be to notify the credit card company as soon as possible and to block that payment so that further damages are averted.

The other thing you must take care of is not to repeat the same mistake while selecting an FTD florist online.

Do keep in mind the following three tips to safeguard your interests:

* One way to make sure that you select authentic FTD florist online is to make a thorough study. You can join forums or go through websites which inform people about scam sites. At the same time, you can also find out the reliable and trustworthy sites which cater to such online orders too.

* Have as many options as you can. Don't fall for the first FTD florist. Scammers are almost always tech-savvies. They will naturally employ techniques to make them come up in the first page of your search results, to increase their chances of duping more people.

* Do not hesitate to source out recommendations from people who have utilized the option of FTD florist online before. Their experience would certainly guide you to the best possible alternative without taking undue risks.

Buying and sending flowers should be a pleasing experience not something you want to forget. Follow these simple tips and you will greatly reduce the risk of falling prey to an FTD florist online scam.
