For posting Free Ads Places

There are many different websites where you can post free ads. Here are ten of the best.

MySpace.com: This website requires more blogging. However, on this website your blogs will actually be read, and that can be very profitable for you and your business. It is ranked 4th in traffic of all websites all over the world.

Blogger.com: If you don't like writing on a blog you may not appreciate this website. However, it is great for someone new to the Internet. This website has a ranking of 19 in traffic of all websites all over the world.

Craigslist.com: On this website you can advertise your business and you will receive more traffic than the very popular websites such as Geocities.com, About.com, CNET.com, and AOL.com. You must abide by some rules such as only posting the advertisement every three days. This website can make your business that a keyword campaign in Google. It is ranked 28th in traffic of all websites all over the world.

Reference.com: This website is trafficked very highly. You must properly categorize your advertisements to make sure that they will be read. This website has a ranking of 129 in traffic of all websites all over the world.

DMOZ.org: This website is a 100 percent free submission search engine. The categories are somewhat broad but receive a lot of traffic. It allows you to link back to your website which will increase your search engine ranking. This website is ranked 168th in traffic of all websites all over the world.

Superpages.com: This website is similar to the Internet's Yellow Pages where you can submit free ads. To help you obtain business that is local, their listings are organized geographically. Their categories are very broad so it's important to place your free ad in the right category. This website is the Yellow Pages for websites like MSN and has a ranking of 403 in traffic of all websites all over the world.

EzineArticles.com: This is the website where you can submit articles that can be back linked to your website. This will increase the traffic to your website because people post their content on the website and because people go to this website to research the subjects like what your website offers. The website is ranked 622nd in traffic of all websites all over the world.

Backpage.com: This website is similar to Craigslist.com. It targets large cities so if you live close to a large city it can significantly increase the traffic to your website. This website is ranked 2107 in traffic of all websites all over the world.

GoArticles.com: This website is where you can submit articles that are linked back to your website. The more articles that you write the more your traffic will increase. This website receives a lot of traffic and is ranked 2120 in traffic of all websites all over the world.
