The English program is designed with a system of goals in order to best serve the success of its students. These goals were put in place in order to aid the students to achieve their highest level of proficiency within the field. These goals include preparing students by enhancing their critical thinking skills, while also allowing adequate growth in their talents in relation to their reading and writing. Learn more on [degree program](#) details to help you understand how the program will help you succeed in your future goals.

Within the English program students must be able to apply broad theoretical and practical questions that pertain to analytical, ethical, and critical thinking in relation to the material being discussed. Students will also learn how to examine texts by relating them to the present and past, in addition to how it relates to different cultures. These techniques will allow students to expand their capabilities with handling and applying different methodologies in context to different literary materials.

Part of the purpose of completing the degree program in English at Drexel is to ready its students to enter into the workforce in jobs that need writing, and communication, among other specific skill sets. This allows students great flexibility when choosing a career path after earning their degree. The University also sets students up for the ability to pursue graduate degrees in the areas of professional writing, teaching, and law. Reviewing [Bachelor online](#) materials will help you figure out how an English program can assist you in your career.

In the department of English at Drexel, faculty members and students work together to put together a series of conferences and student gatherings in order to broaden individuals horizons. The conferences allow students to interact with talented professionals in their field and they also give students the ability to interact with each other through film screenings and poetry readings. The department is also known for its ties to elite associations such as the African American Literature Association Bulletin and the Sonia Sanchez Literary Review.

Within the English undergraduate program, students are required to take fifty credit hours of foundation and professional courses that make up what is considered to be the "traditional" classes of the English major. These classes include survey courses in British, American, and Post-Colonial literatures, as well as genre classes in poetry, fiction, and drama. Students must also complete six credits of literature electives. Such elective courses include "Women in Literature" and "American Ethnic Literature".

Students are also expected to complete twelve credits in applied writing and communications courses. The classes in this section are created to provide students with the ability to explore writing in a variety of ways. In addition to this students need to complete twelve credits in courses that fall under the umbrella of science and technology in the humanities. The purpose of the classes in this section is to allow students to combine today's technology within the literary field.
